

TEMPORARY BUILDING SITE PROTECTION

www.nmc-nomafoam.com

**BUILDING SITE DAMAGE?
COMPLETELY UNNECESSARY!**

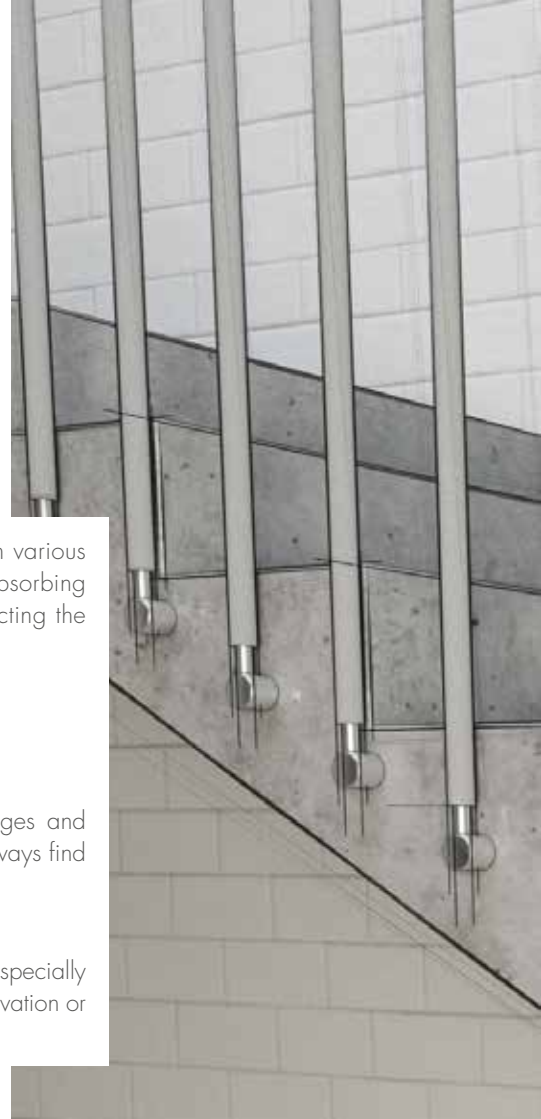

Scratches on door frames or stair rails, chipped tiles, dents in lift cages... Such **unnecessary damage** is caused by carelessness, whether on a new-build site or when doing refurbishment work in lived-in homes. And the resultant problems are quick to follow: angry clients, construction delays... and possibly even claims for damages.

But none of this is necessary! **NMC has developed temporary protection foams** – profiles made of resistant polyethylene able to efficiently absorb bumps, thereby protecting fittings such as stair rails, door and window frames and other vulnerable construction features. Applied to scaffolding, **they reduce the danger of people getting injured.**

NMC is a leading international company producing synthetic foams used in the automotive sector, as protective profiles in the logistics sector, as well as in the construction industry.

Practical, easily and quickly installed NOMAPACK® U- and O- profiles in various sizes **completely cover** handrails, stair-posts, rungs and crossbars, absorbing shocks caused by falling objects, bumps and scratches and thereby protecting the fittings from **unnecessary damage**.

NOMAPACK® FEP:

Versatile protective profile with a particularly large internal diameter.

NOMAPACK® U:

The NOMAPACK® U-range consists of effective protection profiles for edges and curves of all types. Thanks to the various dimensions and thicknesses you'll always find suitable protection for stairs and stair rails at your construction site.

NOMA® PROTECT TPRO:

NOMA® PROTECT TEMPORARY PROTECTION 114 x 13/2m is a solution specially designed to protect larger stair posts and door frames during construction, renovation or home-moving. Thanks to its flexibility, this pre-slit profile can be easily fixed.

TEMPORARY STAIRS AND STAIR RAIL PROTECTION

NOMAPACK® ○ preslit

Colour: Grey

Length of profile: 2.000 mm ± 30 mm

Material: PE-LD Foam – Recyclable

Features: delivered as pre-slit profile, other dimensions available on request

Type	A	B	m / 	Item Code
9mm 18-9	19mm ± 3	9mm $\pm 1,5$	330m	3001142
13mm 76-13	78mm ± 4	13mm ± 2	40m	3001062

$\text{m}^3 / \text{box} = 0,50$
 2040*590*390mm

NOMAPACK® U Tulip

Colour: Blue

Length of profile: 2.000 mm ± 30 mm

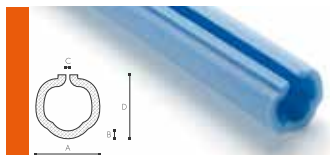

Material: PE-LD Foam – Recyclable

Features: protected design, the „original“, proven and reliable profile.

Type	A	B	C	D	m /	Item Code
5-15	16mm ± 2	7mm ± 1	3mm ± 3	29mm ± 2	560m	300243

m³ / = 0,50
 2040*590*390mm

NOMAPACK® U FEP

Colour: Blue

Length of profile: 2.000 mm ± 30 mm

Material: PE-LD Foam – Recyclable

Features: Versatile protective profile with a particularly large internat diameter

Type	A	B	C	D	m /	Item Code
FEP	65mm ± 5	9mm ± 1	5mm ± 5	65mm ± 5	120m	3002245

m³ / = 0,50
 2040*590*390mm

NOMA® PROTECT TEMPORARY PROTECTION 114 x 13/2

Colour: Red

Length of profile: 2.000 mm ± 30 mm

Material: PE-LD Foam – Recyclable

Features: Special protection for door and window frames, naturally high clamping force due to high lip tension, easy to fix, delivered as pre-slit profile

Type	A	B	m /	Item Code
114 x 13	114mm $+6/0$	12mm ± 1	22m	3003074

m³ / = 0,50
 2040*590*390mm

TEMPORARY DOOR PROTECTION

The pre-slit profiles adapt to nearly all door frames, protecting them from scratches and costly repairs. Particularly suitable on building sites or when moving house. Installed at the turn of a hand, **the protective profile covers the whole door frame. No need for any additional fixing.**

NMC Door Frame Protection is also available as environmentally-friendly NMC Naturefoam[®], a foam made of renewable materials and/or as certified flame-resistant foam.

NOMA[®] PROTECT TPRO:

NOMA[®] PROTECT TEMPORARY PROTECTION 114 x 13/2 m is a solution specially designed to protect larger stair posts and door frames during construction, renovation or home-moving. Thanks to its flexibility, this pre-slit profile can be easily fixed.

NOMAPACK® U Tulip Stretch

Colour: Blue

Length of profile: 2.000 mm ± 30 mm

Material: PE-LD Foam – Recyclable

Features: protected design, the „original“, proven and reliable profile with a patented system to reach a width of 160 mm

Type	A	B	C	D	m / 	Item Code
100 - 120	120 - 160mm	21 mm ± 2	100 - 140mm	80mm ± 3	44	3002290

m³ /  = 0,50
 2040*590*390mm

NOMA® PROTECT TEMPORARY PROTECTION 114 x 13/2

Colour: Red

Length of profile: 2.000 mm ± 30 mm

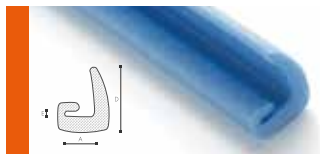

Material: PE-LD Foam – Recyclable

Features: Special protection for door and window frames, naturally high clamping force due to high lip tension, easy to fix, delivered as pre-slit profile

Type	A	B	m / 	Item Code
114 x 13	114mm $+6/0$	12mm ± 1	22m	3003074

m³ /  = 0,50
 2040*590*390mm

NOMAPACK® C BTH

Colour: Blue

Length of profile: 2.000 mm ± 30 mm

Material: PE-LD Foam – Recyclable

Features: Total protection for sensitive edges, extreme clamping force, easy to fix

Type	A	B	C	m /	Item Code
BTH	34mm ± 1	74mm ± 4	5,5mm ± 1	120	3002205

m³ / = 0,50
 2040*590*390mm

NOMAPACK® U Tulip

Colour: Blue

Length of profile: 2.000 mm ± 30 mm

Material: PE-LD Foam – Recyclable

Features: protected design, the „original“, proven and reliable profile.

Type	A	B	C	D	m /	Item Code
45 - 60	57mm ± 2	14mm ± 1	30mm ± 5	60mm ± 2	100	3002267

m³ / = 0,50
 2040*590*390mm

NOMA® PROTECT TEMPORARY PROTECTION 114 x 13/2

Colour: Red

Length of profile: 2.000 mm ± 30 mm

Material: PE-LD Foam – Recyclable

Features: Special protection for door and window frames, naturally high clamping force due to high lip tension, easy to fix, delivered as pre-slit profile

Type	A	B	m /	Item Code
114 x 13	114mm $+6/0$	12mm ± 1	22m	3003074

m³ / = 0,50
 2040*590*390mm

TEMPORARY WINDOW FRAME PROTECTION

Profiles in various shapes and sizes, made of resistant polyethylene foam, are available to protect window frames and sills. **Thanks to their very high clamping force, they stick to every window frame and sill without any additional fixing needed.** Cut to size on-site, the profiles fit every angle. The most efficient solution to avoiding damage and costly repairs, for example to sensitive natural stone window sills.

NOMAPACK® C BTH:

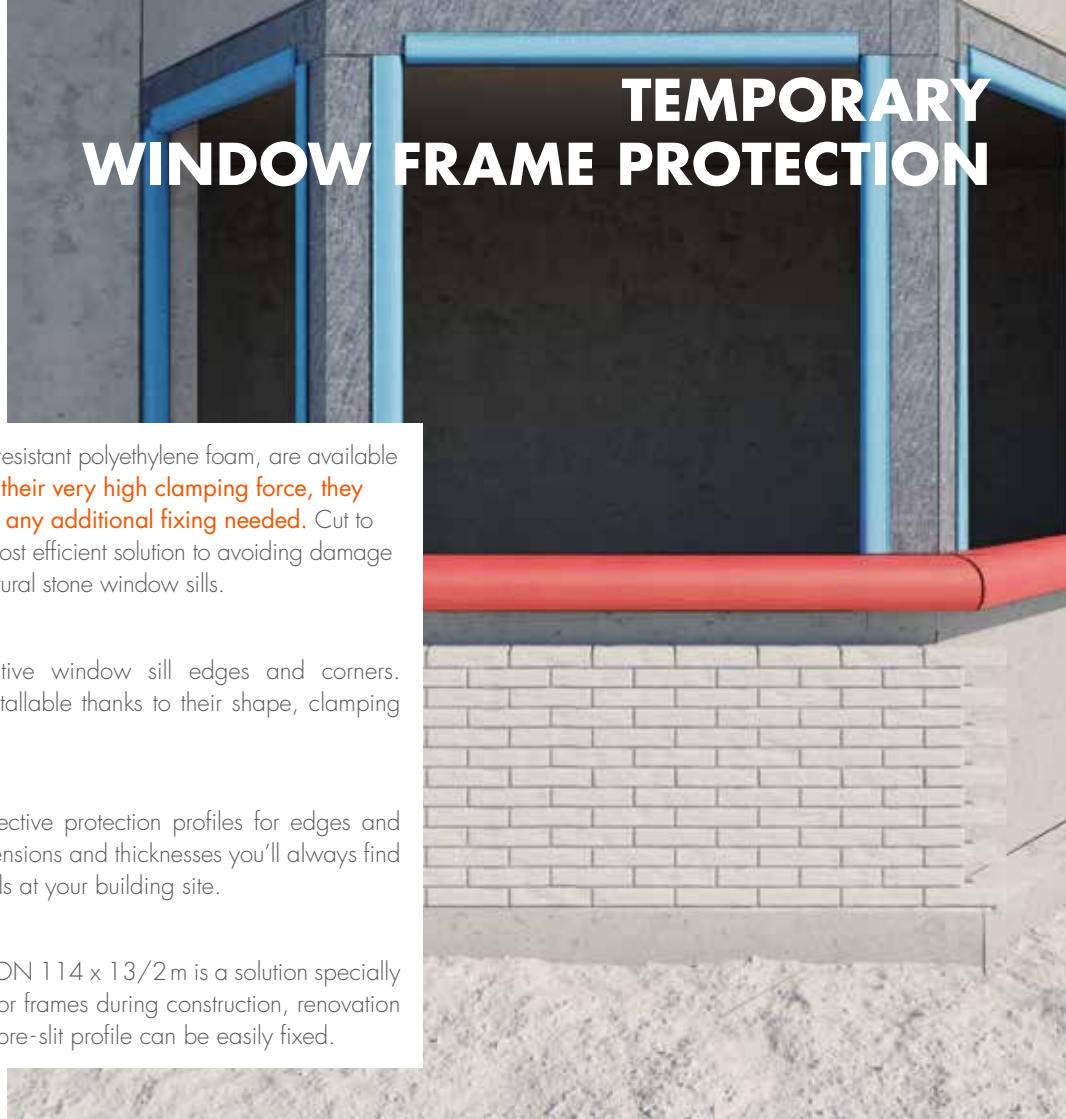

The innovative protective profile for sensitive window sill edges and corners. NOMAPACK® CBTH profiles are easily installable thanks to their shape, clamping onto a window sill, whatever its shape.

NOMAPACK® U:

The NOMAPACK® U-range consists of effective protection profiles for edges and curves of all types. Thanks to the various dimensions and thicknesses you'll always find suitable protection for window frames and sills at your building site.

NOMA® PROTECT TPRO:

NOMA® PROTECT TEMPORARY PROTECTION 114 x 13/2 m is a solution specially designed to protect larger stair posts and door frames during construction, renovation or home-moving. Thanks to its flexibility, this pre-slit profile can be easily fixed.

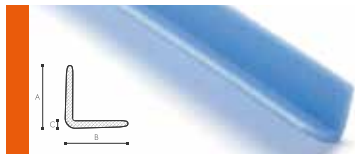

TEMPORARY CORNER PROTECTION

Right-angled edges and corners are particularly susceptible to being damaged by falling objects or by bumps. NOMAPACK® L-profiles provide perfect protection for all right-angled edges and corners: door openings, worktop edges, wall corners, tiled staircase edges, etc. The L-profiles are simply pressed onto the edges. **They can be removed just as simply, and they are reusable. They are available with or without glue.**

NOMAPACK® L

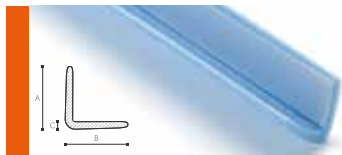

Colour: Blue
 Length of profile: 2.000 mm ± 30 mm
 Material: PE-LD Foam – Recyclable
 Features: fast, inexpensive and reliable protection

Type	A	B	C	m /	Item Code
75 x 75 - 10	75 mm ± 3	75 mm ± 3	10 mm ± 1	210	3002210

$\text{m}^3 / \text{box} = 0,50$
 2040*590*390mm

NOMAPACK® L HMR

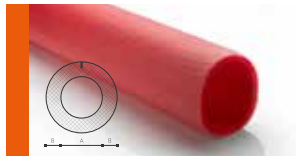

Colour: Blue
 Length of profile: 2.000 mm ± 30 mm
 Material: PE-LD Foam – Recyclable
 Features: With residue-free removable adhesive (white release), multiple applications, easy to fix

Type	A	B	C	m /	Item Code
75 x 75 - 10 HMR	75 mm ± 3	75 mm ± 3	10 mm ± 1	210	3002211

$\text{m}^3 / \text{box} = 0,50$
 2040*590*390mm

NOMA® PROTECT TEMPORARY PROTECTION O 54 x 20/2480 mm

Colour: Red
 Length of profile: 2.480 mm ± 40 mm
 Material: PE-LD Foam – Recyclable
 Features: Delivered as pre-slit profile in a high-vis colour

Type	A	B	m / 	Item Code
54 - 20	54mm ± 1	20mm ± 1	60	3003089

$m^3 /$  = 0,50
 2040*590*390mm

NOMA® PROTECT TEMPORARY PROTECTION O 50 x 14/2 m

Colour: Lemon
 Length of profile: 2.000 mm ± 20 mm
 Material: PE-LD Foam – CFC- and HCFC-free – Recyclable
 Features: Delivered as pre-slit profile in a high-vis colour

Type	A	B	m / 	Item Code
50 - 20	50mm ± 5	14mm ± 3	70	3003892

$m^3 /$  = 0,50
 2040*590*390mm

SCAFFOLDING

Foam profiles from the NMC Temporary Protection series are used to protect pedestrians and workers from hurting themselves on scaffolding erected in public spaces. **The pre-slit profiles are just pushed over the scaffolding posts.** They are made in **high-vis colours**, giving pedestrians advance warning. Should the latter nevertheless bump into the scaffolding, the foam will act as a shock-absorber, protecting them from bad head injuries and other harm.

comfort and protection for a better life
