info@nmc.eu · nmc-nomafoam.com

## SOFT

- Low deflection force
- Highly compactable
- Cushioning properties
- Available in different grades and softnesses

## SMART

- Seamless fit to every shape
- Conformable
- Initial shape recovery
- Totally or partially open cell foam
- Different cell sizes
- Liquid absorption
- Acoustic absorption
- Chemical resistance, fungi growth resistance
- Recyclable
- Customized formulation to achieve specific properties:
  - antistatic
  - fire-class
  - mechanical properties

## SHAPED

- Tailor-made solutions in different shapes with and without holes
- Integrable into clients' continuous manufacturing processes (long spool lengths)
- Can be customized using
  - lamination
  - coextrusion
  - adhesive technologyfor a large range of applications
