

PRODUCT SPECIFICATION

NOMAPACK® PALLET DIVIDER

NOMAPACK® Pallet Divider is a well established solution designed to support the protection and transport of components throughout the manufacturing and distribution chain.

PRODUCT FEATURES

- › Core of corrugated cardboard made of recycled material.
- › Laminated with PE foam on both sides.
- › PE foam laminated with a hot melt adhesive containing bio-based raw materials.
- › Available with foam border or cut clear along the cardboard edges.
- › Antistatic PE foam surface available on demand.
- › Designed to support effective fixation and protection.
- › Stiff and easy to handle.
- › Liquid-resistant surface provided by the protective PE foam layer.
- › Available in various corrugated cardboard thicknesses and strength grades.

PRODUCT SPECIFICATION

NOMAPACK® PALLET DIVIDER

CORE MATERIAL

- › Stiffness: depends on the quality of the corrugated cardboard and the type of fluting
- › Compressive strength: depends on the flute geometry and the corrugated cardboard specification
- › Other sizes, foam versions and corrugated cardboard qualities on request (E.g. for half pallets)

SURFACE MATERIAL:

- › By its tightness and softness, the PE foam helps protect the product to be packed
