

PRODUCT SPECIFICATION

NOMAPACK® ROLL & SHEET

NOMAPACK® Roll & Sheet packaging foam combines low weight with protective properties against scratches, impact, dust and moisture.

NOMATEC® Roll & Sheet is designed to help protect vulnerable products with high-quality surfaces, such as furniture, household appliances and electronic equipment, during transport and storage.

PRODUCT FEATURES

- › Non cross-linked extruded polyethylene
- › Closed cell structure
- › Low water absorption and water-vapour transmission rate
- › Very good resistance to solvents, fuel, oil and other chemicals*
- › High resiliency and flexibility
- › Cushioning properties suitable for protective packaging applications
- › Temperature stability from -40°C to +90°C*
- › PE foam can be mechanically recycled where suitable collection and recycling systems are available**
- › Soft and flexible
- › Low weight
- › Improvement of transport economy
- › Available as rolls and flat sheets in different sizes
- › Rolls can be perforated for easy ripping
- › Antistatic material available

* Performance depends on the material specification, application and service conditions.

** Recycling possibilities depend on local collection, sorting and recycling infrastructure.
