

NOMAPACK® C

NOMAPACK® C provides reliable protection thanks to its high cushioning properties. It is used in industrial storage as an underlay, intermediate layer and spacer material. Due to its resistance to moisture, the material is also suitable for outdoor applications.

PRODUCT FEATURES:

- » Manufactured from polyethylene (PE LD) foam
- » Water absorption: < 1 – vol.% after 40 days
- » Supplied as lengths

APPLICATIONS:

- » Spacer to protect sensitive surfaces
- » All-round protection for long, narrow goods

RECYCLING INFORMATION: This product can only be processed in specific polyethylene (PE LD) recycling systems where suitable collection, sorting and recycling infrastructure is available. Such systems are not widely established and their availability varies by region. Whether recycling is possible therefore depends on local waste management capabilities.
