

NOMAPACK® L

NOMAPACK® L profiles are designed to protect edges and corners made of glass, wood, plastic and metal. They are available with or without adhesive coating and in various edge lengths and material thicknesses, enabling use across different applications.

PRODUCT FEATURES:

- » Manufactured from polyethylene (PE LD) foam
- » Water absorption: < 1 – vol.% after 40 days
- » Supplied as lengths

APPLICATIONS:

- » Edge and corner protection
- » Scratch sensitive flat products
- » Suitable for applications in shrink tunnels

RECYCLING INFORMATION : This product can only be processed in specific polyethylene (PE LD) recycling systems where suitable collection, sorting and recycling infrastructure is available. Such systems are not widely established and their availability varies by region. Whether recycling is possible therefore depends on local waste management capabilities.
